CLARK

America's
Greatest Baritone

Oklahoma music lovers are to be gratified that they have the opportunity of hearing this great baritone. Mr. Clark has won an encou-

rage in the vocal world here and abroad. His famous Paris Vienna as well as American engagements have brought him high praise from the music critics of those places. Mr. Clark is not only the first American singer, but the first American musician ever requested to perform in the concert hall of the Paris Conservatory in the last three-quarters of a century. Musically speaking, this singer could not have received a higher tribute.

To Appear Here Nov. 18

The voice of this baritone is of exquisitely quality and his artistic interpretations of both dramatic scenes and songs as well known to music loving over the world.

Auspices Oklahoma Chorus

The Oklahoma Chorus, the resident organization of the city, to promote better choral music in Oklahoma City, has engaged Mr. Clark for this concert. Proceeds will be used to further the work of the Chorus.

MANY DEFECTS IN ROAD LAW

Chickasha Man Says Act or Radical Amendment Needed; "One-Man Law"

CHICKASHA, Nov. 12.—The new road law proposed is to my mind to continue to be a dead letter until radically amended or superseded by a new law, the insertion of James Robinson, commission for the Chickashaw district of Grady county, officer attending the state meeting of county officers at Oklahoma City. It appears to be just another of the minor laws made by the last legislature, which seem to need the services of a doctor or an injection of "lockjaw" dope.

Mr. Robinson said that the present road law was impracticable to a great extent, in that it restricted the actions of the commissioners and restricted the actions of the highway surveyors. He said that the present road law amounted practically to one-man law in each and every county in the state. This is to say, virtually all the powers now held by the three commissioners of a county and vested those powers almost in the hands of the highway surveyor in that county; that the commissioners were powerless under the provisions of the present law to act save in the manner thereby ineffective and incapable. The "red tape" of such a law necessitated the hiring of the surveyors with unnecessary additional expenses which were a drain upon the road funds, and that the commissioners should no toward working out making possible and better roads, due to a greater or less degree, believed fully unremunerative channels, and a large part of the money which should be used in digging ditches and building culverts and grading down hill, and filling in low places, would be used in the defrayment of the unnecessary expenses under the present road laws, while the roads upon which this money should be used and later which it would become but little better after the expenditure had been made.

Mr. Robinson stated in rather emphatic terms that it was up to the members of the state legislature, house members and senators to either repeal the present law and enact a new law in its place, or to amend the present law so that it will become a road law which will give the people of all the counties of the state good roads—a law which will be a road law in fact, and not an engineer's law. He said that he thought the members of the general assembly should the legislature be called in extraordinary session this winter, as it now seems that it will be no longer remote on one-man's and an impracticable law, or that they would repeal the present law altogether and enact an entirely new law governing the working, creating and the maintenance of highways.

An Improved Quinine Does not Cause Nervousness nor Ringing in Head

The long-claimed laxative LANATIVE BROMIC QUININE makes the Quinine in this case have a far better effect than the ordinary Quinine, and it can be taken by anyone without affecting the head. Remember to call for the full name. Look for signature of E. W. Grove, 256.
